

Farbwelten Range of colours

Triflex Chips Design

52 Farben. Unzählige Möglichkeiten.

52 Colours. Countless possibilities.

Farben setzen auf Balkonen, Loggien und Laubengängen Akzente. Sie verleihen eine individuelle Ausstrahlung und unterstreichen die Architektur des Gebäudes. Das Farbspektrum des Triflex Chips Designs bietet Ihnen 52 verschiedene Farben und drei verschiedene Oberflächen. Triflex Abdichtungslösungen schützen Ihre Bausubstanz langfristig vor eindringender Nässe und Feuchtigkeit. Egal ob Sanierung oder Neubau, wir haben die passende Lösung, an der Sie lange Freude haben.

Colours serve to accentuate balconies, loggias and walkways. They give them a character all of their own and emphasise the architecture of the building. The colour range of the Triflex Chips Design offers you 52 different colours and three different surface finishes. Triflex waterproofing solutions give the structure of your building long-term protection against penetrating damp and moisture. Whether a new build or refurbishment, we have the perfect solution you can enjoy for many years to come.

Das hochelastische Material unserer Flüssigkunststoff-Systeme meistert die mechanische Punktbelastung durch Stühle oder Tischbeine problemlos.

The highly elastic material of our liquid applied waterproofing systems can cope with mechanical point loads from chairs and table legs with no problem at all.

Oberflächen Surface finishes

Einstreuung mit Micro Chips

Mit Triflex Micro Chips bekommen Oberflächen Struktur. Die Optik wird aufgelockert.

Micro Chip dressing

Triflex Micro Chips add texture to surfaces, creating an aesthetically pleasing appearance.

Malachit 01 | 7096

Einstreuung fein

Zusätzlich eingestreuter feuergetrockneter Quarzsand wirkt rutschhemmend.

Dressing, fine

Additional flame-dried quartz sand dressing provides a non-slip finish.

Malachit 01 | 7096

Einstreuung grob

Eine grobe Quarzsandkörnung empfiehlt sich besonders bei Treppen und schrägen Flächen.

Dressing, coarse

Coarse quartz sand is particularly recommended for stairs and slanted surfaces.

Malachit 01 | 7096

Viele Vorteile auf einen Blick

- Schnelle Sanierung an nur einem Tag möglich
- Sanierung in der Regel ohne Abriss, Dreck und Staub
- Witterungs- und UV-beständige Lösungen
- Dauerhafter Schutz der Bausubstanz vor Feuchtigkeit
- Vollflächige Abdichtung
- Hochelastisches Material verhindert Risse
- Ganzjährig verarbeitbar (auch bei niedrigen Temperaturen)
- Vielfältige Farben und Oberflächen
- Zertifizierte und geprüfte Qualität

Many advantages at a glance

- Swift refurbishment possible in just one day
- Refurbishment generally carried out without wreckage, dirt or dust
- Weather and UV-resistant solutions
- Lasting protection of the structure against moisture
- Full-surface waterproofing
- Highly elastic material prevents cracks
- Can be applied all year round (also in low temperatures)
- Variety of colours and surface finishes
- Certified and tested quality
